Summary

I'm a Full Stack Developer who enjoys building clean, fast, and user-friendly web applications. I work across the stack creating smooth interfaces, structured APIs, and reliable backend systems. I like turning ideas into practical products, solving problems with clarity, and continuously improving through learning and real-world projects.

Technical Skills

Languages: JavaScript (ES6+), PHP, Core Java, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Context API, Redux

Backend: Node.js, Express.js, Laravel, REST APIs, JWT Authentication

CMS: WordPress, Elementor, Rank Math SEO

Databases: MongoDB, MySQL, Firebase, Mongoose

Tools: Git, GitHub, Postman, VS Code, Render, Vercel

Integrations: Razorpay, Cloudinary, Google OAuth, Multer

Experience

Associate Software Engineer

June 2026 – Present

Grin Technologies

Nagpur, India

- Developed and enhanced responsive frontend interfaces for enterprise applications, including Admin, Dealer, and Super Admin panels with improved usability and mobile responsiveness.
- Designed and developed backend REST APIs for core business modules including Leads, Cash Receipt, Reports, Category Management, Client Management, and EMI-related operations.
- Built and maintained dashboard features, management modules, filters, pagination, authentication, role-based access, and data-driven reports based on business requirements.
- Implemented UAT fixes, debugging, performance and UI improvements, and production-ready changes while collaborating with team members to deliver application enhancements.
- Worked on application testing, API integration, bug resolution, database-related changes, and deployment support to ensure reliable functionality across different user roles and modules.

Frontend Developer Intern

Dec 2025 – May 2026

ResoluteAI Software

Remote

- Building modern web applications using React.js and Firebase, delivering responsive and scalable frontend solutions
- Collaborating with cross-functional teams to implement UI components and optimize application performance
- Integrating Firebase services including authentication, real-time database, and cloud storage for seamless user experiences
- Participating in code reviews and agile development processes to ensure code quality and timely delivery

Projects

OGNÉ – Full Stack E-Commerce Platform

[Live Demo](#) • [Source Code](#)

- Developed complete e-commerce platform with product catalog, user authentication, shopping cart, and order management system
- Integrated Razorpay payment gateway for secure transactions with order tracking and invoice generation
- Built admin dashboard with product management, user management, and sales analytics using JWT authentication
- Implemented responsive UI with Tailwind CSS and optimized images using Cloudinary storage
- Used React for frontend, Node.js/Express for backend, and MongoDB for database management

AI-Powered Exam Notes Generator

[Live Demo](#) • [Source Code](#)

- Created AI-powered tool that generates comprehensive exam notes and study materials automatically from any topic
- Integrated Gemini AI API for intelligent content generation with proper formatting and key point extraction
- Implemented user authentication system with secure note saving and organization features
- Designed responsive interface with topic input, notes generation, and PDF export functionality
- Built using React for frontend, Node.js/Express for backend API, and MongoDB for storing user notes

AI-Powered Code Review & Bug Detection

[Live Demo](#) • [Source Code](#)

- Created web-based tool to analyze JavaScript, Python, and Java code for errors and improvements
- Integrated AI API for intelligent code suggestions, bug detection, and performance optimization tips
- Implemented real-time code analysis with syntax highlighting and detailed error reports
- Designed clean user interface with code editor and suggestion panels for better user experience

Education

B.Tech in Computer Engineering

2022 – 2026

Rashtrasant Tukadoji Maharaj Nagpur University

Nagpur

Certifications

REST API Certification • HackerRank
